

PRESS RELEASE (for immediate release)

February 7, 2018

A MAJOR NEW-BRUNSWICK ENGINEERING FIRM REINFORCES ITS PRESENCE IN ATLANTIC CANADA BY PARTNERING WITH A CANADIAN LEADING COMPANY - CRANDALL AND ENGLOBE ARE JOINING FORCES.

(Moncton, NB) **Crandall Engineering Ltd. ("Crandall")**, a leading consulting engineering firm founded over 60 years ago in Moncton, and **Englobe Corp. ("Englobe")** a Canadian Leader in Soils, Materials and Environmental Engineering, with a well-established network of offices across the country, announce that they are joining forces. By teaming up, Crandall and Englobe become a major service provider in Atlantic Canada, with 5 offices and nearly 200 staff, including a local presence in New Brunswick, Nova Scotia and Newfoundland.

Both companies will offer their complementary services to each other's clients in Atlantic Canada, which include municipalities, provincial and federal governments, and private companies.

"Crandall's team has experienced significant growth in recent years. With Englobe, we intend to continue on our path, and provide exciting new opportunities to the people and to the communities in Atlantic Canada as well as comprehensive solutions to our clients." says Mike Cormier, former President of Crandall and the new Vice President Operations – Atlantic Canada, currently responsible for all operations in the region.

Bob Youden, Executive Chair, Englobe, says: *"Crandall is a great company that has a well established reputation in Atlantic Canada and we are happy to take the first step towards our Canadian Growing Plan with them. I look forward to seeing the beneficial impacts of this partnership for the region as we grow together and rapidly create job and business openings."*

Crandall and Englobe will continue to operate under their respective names.

About Englobe Corp. and Crandall, a division of Englobe Corp.

Canadian Leader in Soils, Materials and Environmental Engineering, Englobe was founded over 50 years ago and has 1800 employees working in more than 65 locations across Canada, in France and in the United-Kingdom. From consulting services to turnkey project implementation, at Englobe, our passionate people, our experience and expertise allow us to provide you with tailored solutions, which meet your needs, budget and schedule. For more information please visit www.englbecorp.com

Crandall is an employee-owned company founded in 1952 with a team of 115 dedicated people. With a presence in the four Atlantic Provinces through a variety of projects, it provides complete engineering solutions for Municipal, Water/Wastewater, Transportation, Land Development, Building Mechanical and Electrical services. Crandall has taken pride in its ability to consistently complete jobs to project specifications on time and on budget. We regard each project as a partnership with our client.
